Centre for Housing Innovation

The Centre for Housing Innovation (CHI), led by the DMZ in partnership with GroundBreak Ventures, CivicAction, and NGen, is a national initiative accelerating innovation in Canada's housing sector. Funded by the Federal Economic Development Agency for Southern Ontario, CHI supports high-potential startups through a six-month accelerator program offering mentorship, investor access, strategic partnerships, office space, legal support, and over \$1 million in partner perks. Its mission is to drive scalable solutions in housing affordability, sustainability, and productivity, positioning Canada as a global leader in housing innovation.
